Custom Water Pump Housings for Smallblock Chevy V8

Uses 1963-75 Chevy 6 cylinder water pump. Mounts fan 5" higher than stock V8 water pump. Fan is better centered to radiator for better air flow on most cars to 1940. Alternator and air conditioning compressor mount to top of bracket which helps solve some clearance problems with the sides of the hood. Fully machined aluminum casting. Easy bolt on. Uses factory GM pulleys (not included).

LG-8500-AC	Includes brackets for air conditioning	325.00 ea
