Typical 1934 Coupe & Sedan Window Parts

Typical of early 1934 with inside door handle near front of door

Typical of late 1934 with inside door handle near center of door

1934 Roll-Up Window Felt Kits

Important: 1934 used two different types of window felt kits. One type was common to cars with the inside door handle near front of door, the other common to cars with the inside door handle near the center.

Felt kits include all metal and felt lined window run channels (w/mounting clips installed) for 2 windows (both sides of car). Window bumpers (both door and garnish) and installation screws included. Regulator and glass retaining channels not included.

Door Weather Seal,

Windlacing was used to seal the front and back of doors. Coupes and sedans use a rubber seal that mounts to the sheetmetal above the door (Most fiberglass bodies cannot use this seal.) A rubber seal strip was attached under the upholstery at bottom of door.
