Convertible Wescott Design Top Irons and Bows

Folding 2" Chop or stock height top iron for your Wescott's 1939 Convertible body. These irons fold over and back in a modern style. Use in steel bodies requires modification of top well area and door posts. Our special top well side formers are needed. Use in other fiberglass bodies requires installation of a substantial steel support structure.

These irons use 1939 style rear bow and 1940 style header bow and top latches. 1939 or 1940 top to window seals can be used.

Top Irons, including metal center bow

Custom Top Irons

Folding top irons for your Wescott's or original steel 1940 Convertible body. These irons flatten the shape of the top, lowering the profile about 2". Irons include steel #2 and #3 bows. Our special top well side formers are recommended to allow setting the rear seat back 2". Use in other fiberglass bodies may require installation of a substantial steel support structure. Uses 1940 Top Iron Corner Brackets, Top wood header and rear bow, and top latch hardware (not included). 1939 or 1940 top to window seals can be used.
